ImportError: No module named appengine.ext

-----
Ran 2 tests in 0.000s

FAILED (errors=2)

https://stackoverflow.com/questions/15783783/python-import-error-no-module-named-appengine-ext

I ran the following command through Terminal (I'm using Mac) : export
PYTHONPATH="$PYTHONPATH:/usr/local/google_appengine:/usr/local/google_appengine/lib/./usr/local/google_appengine
/lib/yaml/". You have to configure the paths to the libraries.
```
